Dear Moonlight:

In answer to your letter of January 14, 1980: We did plan to use the Albion based CEMR crew on Salmon Creek; however, it took them longer than we expected to finish up on the Albion River.

It is my understanding that there will be no CEMR crew from the Albion area this year. As an alternate, I had proposed that we use a California Conservation Corps crew for log jam removal on Salmon Creek. That proposal fell through when CCC selected Leggett instead of the Fort Bragg area for a camp site.

I appreciate the amount of work you have done on Salmon Creek in mapping and getting land owner support. If and when we are able to work on Salmon Creek, your knowledge will certainly make my job easier.

Sincerely,

John H. Rowell, Jr.
