

FIELD NOTE  
Unnamed tributary to  
Petaluma Creek  
7-10-68

Name - Unnamed tributary to Petaluma Creek

Stream Section - Surveyed from 1/2 mile to the west of Lakeville Highway to 1/2 mile to the east of the old Lakeville Highway.

Length - 1 1/2 miles

Tributary To - Petaluma Creek      T - 4N    R - 6W    Section - 28

Other Names - Unknown

Location of Mouth - The stream sinks into hayfields 1/2 mile to the west of the Lakeville Highway, 3.2 miles north of the intersection of that road and Highway 37.

Source of Data - Surveyed by Bruce Thomson and Jim Michaels on July 10, 1968, by car with frequent stops for closer observation on foot. Some of the information was secured from landowner.

Extent of Observation - The stream drainage is a V-shaped valley, surrounded by grassy hills. This stream had no water whatsoever at the time of survey. The dry streambed was composed of 30% fine rubble, 30% coarse gravel, 30% fine gravel, and 10% sand.

No fisheries value was found and no management program is recommended.
